

## WHAT CAN YOU DO?

- ★ SHARE INFORMATION LOCALLY by joining the No Stolen Elections Yahoo group at <http://groups.yahoo.com/group/nostolenelectionskc/>
- ★ INFORM YOURSELF. Here are good places to start:  
[www.blackboxvoting.org](http://www.blackboxvoting.org)  
[www.votersunite.org](http://www.votersunite.org)  
[www.blackboxvoting.com](http://www.blackboxvoting.com)
- ★ TAKE ACTION: Contact your local election board and ask what their plans are for purchasing electronic voting machines. Attend your election board's meetings and vendor demonstrations. ASK YOUR ELECTION OFFICIALS FOR A PUBLIC HEARING ABOUT ELECTRONIC MACHINES. Publicize these meetings and encourage all citizens to attend them.
- ★ SPREAD THE WORD!! Copy and distribute this flyer.

**DON'T ACCEPT ANOTHER  
STOLEN ELECTION!**

## THINK ELECTRONIC VOTING IS SAFE? THINK AGAIN.

- ✓ Glitch causes Franklin Co. recount in Brookville (IN)—Election equipment counted straight-party votes for Democratic candidates as Libertarian votes, an error that could have affected election outcomes in as many as nine counties.  
<http://www.indystar.com/articles/3/193880-4433-093.html>
- ✓ *The Akron* (OH) *Beacon Journal* reported an error with an electronic voting system giving George W. Bush 3,893 extra votes in suburban Columbus. Earlier, the Akron paper caught four Republicans falsifying more than 900 of the forms required to challenge Democratic voters. The Bureau of Justice has been contacted, and felony charges against all four are possible.  
<http://www.altpressonline.com/modules.php?name=News&file=article&sid=289>
- ✓ Broward machines count backward (FL)—Officials found the software used in Broward can handle only 32,000 votes per precinct. After that, the system starts counting backward.  
[http://www.palmbeachpost.com/politics/content/news/epa - per/2004/11/05/a29a\\_BROWVOTE\\_1105.html](http://www.palmbeachpost.com/politics/content/news/epa - per/2004/11/05/a29a_BROWVOTE_1105.html)
- ✓ Lawsuit filed in Volusia Count (FL)—Many public records, including one signed results tape from a voting machine, were found in the trash. Results from the tapes found in the trash do not match the results of the copies of tapes furnished.  
<http://www.blackboxvoting.org/volusia-lawsuit.html>
- ✓ Berkeley study scrutinizes Florida tally for Bush—Researchers at UC Berkeley released a statistical analysis showing that George Bush may have received at least 130,000 extra and unexplained votes in Florida counties that used electronic voting machines. <http://www.votersunite.org/news.asp>
- ✓ SACRAMENTO, Calif. - The state's top election official called for a criminal investigation of Diebold Election Systems Inc. as he banned use of the company's newest model touchscreen voting machine, citing concerns about its security and reliability.  
<http://www.msnbc.msn.com/id/4874190>
- ✓ Tallahassee, FL: "Are we having fun yet?" This is the message that appeared in the window of a county optical scan machine, startling Leon County Information Systems Officer Thomas James. Visibly shaken, he immediately turned the machine off.  
<http://tinyurl.com/almw3>
- ✓ A "Cyber Security Bulletin" was posted in late August of 2004 by the U.S. Computer Emergency Readiness Team. It warns of an "undocumented backdoor" in Diebold's GEM Central Tabulator software used with its electronic voting machine systems. The security vulnerability could allow a local or remote user to modify vote tallies stored in the system according to the warning and corroborated by several different sources.
